

SECRETARY OF STATE ISSUES STATEMENT

Statement Is Issued As Result
of Message from Acting Min-
ister of Foreign Affairs

ADALPE IS MISINFORMED

O'Shaughnessy Instructed to Explain That
No Official Declaration of Lind's Pur-
pose in Visiting Mexico Has Been Made

PROPOSALS MADE PUBLIC ON ARRIVAL

WASHINGTON, Aug. 8.—Tension over the Mexican situation was conspicuous throughout today in official circles.

President Wilson and Secretary Bryan, in an early conference, discussed the message from Manuel Garza Adalpe, acting minister of foreign affairs, stating formally on behalf of President Huerta that unless John Lind, personal representative of President Wilson enroute to the Mexican capital, bore credentials recognizing the Huerta government, his presence in Mexico would be undesirable.

Mexico City, through Nelson O'Shaughnessy, charge d'affaires, was instructed to explain to the acting minister of foreign affairs that the information on which his statement must have been based could not have come from the state department here, as no official declaration of Mr. Lind's purposes in visiting Mexico had been made. Mr. Bryan also issued the following statement:

"The statement of the Mexican foreign office was based on misrepresentations for which this government is not responsible. In sending Governor Lind as advisor to the embassy, the president is entirely within his rights and this department will not assume that his going will be regarded as unfriendly when the character of his mission is understood."

It was also announced by Secretary Bryan that Mr. Lind would not arrive at Vera Cruz before Saturday evening.

Administration officials take the position that objections to Mr. Lind's presence in Mexico are unwarranted as the general public is not acquainted with the proposals which he carried, or the method by which he intended to submit them.

On Mr. Lind's arrival the proposals will be made public in Mexico City and Washington simultaneously and transmitted here to all the foreign governments represented in the United States. Further emphasis was laid by administration officials upon the point that Mr. Lind as advisor to the American embassy would occupy no unprecedented position; that other embassies and legations had their counsellors and attaches. The inference that he would directly interfere in Mexican politics, which it appears has been spread throughout Mexico, was declared without justification. All his acts, it was said by them, would be in accord with the proprieties of the situation, all his dealings with the Huerta government would be through the charge d'affaires of the American embassy at Mexico City and in all circumstances Mr. Lind would act as the mouthpiece of the Washington administration to anyone who sought to obtain the views of President Wilson and Secretary Bryan on the situation generally.

Most of the Republicans, as well as the Democrats of the two congressional committees on foreign relations, have indicated that they will support the efforts of President Wilson to bring about peace in Mexico. A great many senators, however, are in favor of lifting the embargo on arms. Tomorrow the senate foreign relations committee has a scheduled meeting and undoubtedly will discuss the situation. There is no indication, however, that there will be any further developments as far as the Washington government is concerned until Mr. Lind arrives in the Mexican capital either Sunday night or Monday morning.

Would Stir up Hornet's Nest.

London, Aug. 9.—Commenting on the Mexican situation the Spectator says:

"If America gets involved in a Mexican war she will be lucky if it lasts only three years and stops short of forcing her to raise armies on the European scale. Perhaps, however, the worst aspect of the whole affair is if America succeeds, as no doubt she ultimately would, her success would even be worse than failure. She would find evacuation practically impossible as she would have upon her hands a huge new territory with a large population in permanent revolt."

IOWA EDITOR SUICIDES.

Independence, Iowa, Aug. 8.—L. W. Gowan, editor and owner of the Independence Conservative, an old established weekly newspaper, committed suicide today by hanging himself in the basement of his newspaper office. His body was found by an employee.

No cause for the act is known unless it is ill health, concerning which Mr. Gowan had been despondent for some time.

A widow and four children survive him.

MEXICAN STUDENTS PLAN DEMONSTRATION

APPROVE ATTITUDE TAKEN BY PRESIDENT HUERTA REGARDING LIND

Gigantic Demonstration Will be Participated in Not Only by Students But by All Classes of People—Assure Authorities no Violence Will be Committed.

MEXICO CITY, Aug. 8.—What promises to be a gigantic demonstration of popular approval of the attitude taken by President Huerta regarding the coming to Mexico of John Lind, President Wilson's personal representative, has been planned by the student element, led by their instructors, for next Sunday. The demonstration will not assume an anti-American character, it is stated, although the public generally finds difficulty in separating the idea of anti-Americanism from pro-Huertaism as displayed in the attitude of Huerta toward the United States.

It is announced that the demonstration will be participated in not only by students but all classes of the people. The crowd will march through the streets, halting at convenient places for speech-making. It is believed there will be difficulty in securing a permission for the holding of the demonstration but that the authorities must be assured no violence will be committed. No new official declaration affecting the attitude of the government toward Mr. Lind was made today but there is some reason to believe that the government is seriously considering going to the length of not permitting Mr. Wilson's representative to land at Vera Cruz. Nelson O'Shaughnessy, the American charge d'affaires, acting under the instructions of Secretary of State Bryan, again today reassured the foreign office of the friendly character of Mr. Lind's visit, reiterating in substance the previous note of Mr. Bryan in which Mexico was requested to reserve judgment until the arrival of Mr. Lind. The alarming character given the mission of Mr. Lind was attributed to sensational newspaper reports. Mr. O'Shaughnessy said, and he added that not even the embassy in Mexico City had been advised as to the character of Mr. Lind's instructions. Mr. Lind will not arrive in Mexico City before Sunday.

Federico Gamboa, the new head of the foreign office, arrived here tonight from Belgium, where he was minister for Mexico. Manuel Garza Adalpe, minister of instructions who has been acting foreign minister, probably will be transferred to the department of fomento.

FEDERAL DEPOSITS MAY BE INCREASED

Government Funds to Be Deposited in National Banks Will Be Increased If Necessary

TO AVERT MONEY STRINGENCY

Representative Financiers of the Central
West Confer with Secretary McAdoo Re-
garding Distribution of Federal Funds

BANKERS PRESENT VIEWS ON CURRENCY

WASHINGTON, Aug. 8.—The \$50,000,000 of federal funds about to be deposited in the national banks of the west and south to assist in moving the crops will be increased to \$150,000,000 if necessary. The desire of the government to mobilize all the needed cash of the public treasury in the agricultural belts of the country to avert the money stringency characteristic of the crop moving period was communicated today to thirty-one bankers of the central west at a conference with Secretary McAdoo and Assistant Secretary Skelton Williams, called by the treasury department to make arrangements for the distribution of the big sum.

While these representative financiers, fresh from the crop marketing centers of the middle states, welcomed the prospect of the proposed deposits the consensus of opinion, it was stated, seemed to be that \$50,000,000 would be ample to meet the situation. The dominant tone of the bankers expressed convictions, was the treasury department announced tonight, that business conditions were good, but that the promised deposits would relieve the usual strain.

The bankers at the meeting presented their views on currency legislation to the government. They urged two material amendments to the pending Glass-Owen bill—one curtailing the powers of the federal reserve board proposed to control the reserve banking system and the other essentially modifying the reserve requirements of the measure so as to minimize the decentralization of credits. With these changes, it was stated, all but two of the thirty-one bankers favored immediate banking and currency legislation.

The bones will be sent to the city laboratory to determine whether they are the bones of a human being.

LAD LOSES HIS LIFE AFTER HEROIC RESCUE OF OTHERS

Hal Souter Saves Lives of His Sweet-
heart and Child Only to Be For-
gotten by Lifeboat and Drowned.

Harbor Springs, Mich., Aug. 8.—Hal Souter, 19 years old, of Shelby, Mich., tonight lost his life in Little Traverse bay, after saving the lives of his sweetheart, Miss Teresa Miller, and his child, Arthur Cook. Cook and Miss Miller were standing on a reef where they had gone bathing when the under tow from a storm swept them from their footing. Souter rushed to their aid and held his two companions above the water until life savers from the Harbor Point station arrived. In the excitement attending the rescue, Miss Miller and Cook were hauled aboard the life boat while Souter, exhausted by his struggle, sank and was temporarily forgotten. Two hours later his body was washed ashore.

The three young people were students in Michigan colleges and were employed for the summer at a local club.

Who Were Dismissed From the
Union.

Tacoma, Wash., Aug. 8.—Fifty machinists, members of the International Machinists' union, walked out of the machine shop of the C. M. & St. Paul railway in Tacoma today because the company refused to discharge two men who had been dismissed from the union. When the machinists walked out the company shut off the power resulting in putting about 600 men on the idle list, including blacksmiths, boiler-makers and pipe-fitters. There is also trouble with the machinists in the Northern Pacific shops who sent a committee to St. Paul to negotiate with the officials for an advance in wages. It is reported they have been offered an advance of a cent an hour and have refused to accept it.

DEMOCRATIC TARIFF MACHINERY IS SLOW

Ten Schedules, Including the
Wool, Sugar and Agricultural
Sections Still to Be Considered

DEATH REDUCES MAJORITY

Death of Senator Johnston of Alabama
Reduces the Democratic Majority On the
Tariff Measure to One Vote

SPECIAL ELECTION MAY FILL VACANCY

WASHINGTON, Aug. 8.—All predictions of an early passage of the Democratic tariff bill by the senate are going glimmering. Majority leaders realize that notwithstanding the fact that they have set a new record in pushing consideration of this measure, only a beginning has been made and the earliest anyone now will promise completion of the task is September 15. But it may be even later than that before the final vote is taken.

Ten schedules are still to be considered including the wool, sugar and agricultural schedules. Upon these the minority will center their most vigorous attacks. The death of Senator Johnston of Alabama has reduced the Democratic majority on the bill to one vote, the Louisiana senators having decided to vote against it, because of the free sugar paragraph.

The switch of one Democratic vote would turn the trick unless a successor to Senator Johnston is named at once. Democratic senate leaders insist, however, that the forty-eight votes they have will stand against any Republican amendments.

Death Reduces Majority.

Death today of United States Senator Joseph F. Johnston of Alabama, who succumbed to pneumonia at the senate insist that the vacancy the senate that is somewhat embarrassing to the Democratic majority on the verge of the completion of the administration tariff reform program and makes necessary an immediate interpretation of the provisions of the eighteenth constitutional amendment requiring election by direct vote.

The senator's death reduces the working majority in the senate to five and by recent desertions from the ranks on account of the sugar schedule the majority on the tariff bill is reduced to one.

In view of this the Democrats of his home here, leaves a vacancy in must be filled as soon as possible and to this end the governor of Alabama and the legislature of the state will be called upon to act upon the terms of the constitutional amendment.

It was the unanimous conclusion, after an informal conference of senate Democrats that the Alabama legislature must be called in special session before Governor O'Neil can do anything. The legislature then may authorize him under the terms of the amendment to appoint a successor ad interim and it may also provide the machinery for a special election to choose a new senator to serve for the term beginning March 4, 1915.

Will Call Special Election.

Montgomery, Ala., Aug. 8.—Governor O'Neil of Alabama, late today, announced that he will call a special election to fill the vacancy caused by the death in Washington today of United States Senator Joseph F. Johnston. The governor stated tonight that he expects to order a special election at once, but conditions at Washington might make it necessary to call an extra session of the legislature to fill the vacancy at once.

Because of Alabama's election laws, it is feared that the election may not result in naming a successor before the final vote on the tariff bill now pending in congress.

An attorney General McReynolds advised Governor O'Neil by wire tonight that the governor is entirely within his rights in ordering a special election to fill the vacancy caused by the death of Senator Johnston.

Emergency Still on Stand.

The two lobby investigations under way in congress after a series of short sessions of this week will be resumed Monday. When the senate committee ceased work today James A. Emery, counsel for the association, was still on the stand. The session of the senate committee today was devoted particularly to bringing out the connections of the N. A. T. Taylor, Colorado.

Representative Doremus is ex-officio chairman of the committee which will work in close co-operation with a similar committee from the Democratic national committee in the organization and conduct of the congressional and senatorial campaigns next year.

The contest for the chairmanship of the republican congressional committee was simplified today when Representative A. P. Gardner of Massachusetts announced his withdrawal from the fight and his support of Representative Woods of Iowa for the chairmanship. Representative Gardner, in his statement said that friends had pointed out to him "the bitter feeling toward me on the part of Col. Roosevelt's supporters is not altogether assuaged" and that his selection as chairman might not bring about the desired harmony.

St. Louis, Aug. 8.—President Woodrow Wilson, the governors of forty-five states, W. H. Kresmann, former mayor of this city, and five other prominent St. Louisans, were made defendants in a suit for \$200 filed in a justice court here today by Roscoe C. Specking, a reporter in the circuit court.

EVIDENCE BRINGS OUT NO STARTLING TESTIMONY

Crowds of the Curious Pack the Federal
Court Room to Hear Testimony
in Maury Diggs Case.

San Francisco, Aug. 8.—Thronges of men and women that crowded the federal court room today to hear startling testimony in the government's case against Maury Diggs and Drew Caminetti for alleged violation of the Mann act, were disappointed. The evidence was largely to prove the prosecution's allegations that the defendants took Marsha Warrington and Lola Norris from Sacramento to Reno, Nev., for immoral purposes.

When court resumes the hearing on Tuesday the young women will be called to testify. The government will attempt, it is said, to show, by the stories of the women, that the interstate trip was made because the women were frightened by promises of marriage after the defendants should obtain divorces.

Witnesses today established nothing new or vital to the case.

A hotel clerk at Reno swore that he saw both the defendants register under assumed names at his house with two young women as men and wives. Other witnesses partially identified the defendants and some said they were the men they had seen.

TELL OF SULZER'S MARKET OPERATION

Testimony at Hearing Asserts
Governor Used Campaign Con-
tributions to Buy Stock

WARRANTS IMPEACHMENT

Senator Frawley Asserts Evidence Is
Sufficient to Warrant Proceedings
to Impeach New York Executive

GOV. SULZER MAKES NO COMMENT

NEW YORK, Aug. 8.—Governor William Sulzer of New York was nearly \$50,000 in debt as the result of stock speculations at the time of his nomination and used contributions to his campaign fund to make additional purchases of stock while his debt was hanging over him, according to testimony adduced today at the hearings of the Frawley committee of the legislature. The evidence brought to light is sufficient according to Senator Frawley, chairman of the committee to warrant proceedings to impeach the governor for violation of the corrupt practices act. The committee closed its hearings here today to consider what action should be taken. A decision is expected Monday.

The governor according to the evidence had dealings with three different stock exchange firms and was saved from being sold out by one firm by L. M. Josephthal, a Wall street banker and a member of the governor's staff. Josephthal, it was brought out, paid a debt balance of \$26,739 still standing against the account on July 16, last. This was after the governor had received repeated calls for more margin.

The governor's transactions with the other firms were for cash and it was in connection with one of these that Governor Sulzer, according to the evidence used campaign contributions.

According to the testimony as made public, Governor Sulzer was investing in stocks during the height of his campaign and it is alleged that it was in this period campaign checks were used in connection with the investments. At least two checks, it is said, have been identified as Sulzer campaign contributions. These two checks were drawn by John Lynn for \$500 and Lyman A. Spaulding for \$100. Eugene L. Richards, counsel for the committee, charges that five other checks used in the same connection were campaign checks.

Makes No Comment.

Albany, N. Y., Aug. 8.—Governor Sulzer declined tonight to comment on the testimony developed before the Frawley investigating committee in New York today.

K. OF P. TO HAVE
TENT AT CHAUTAUQUA.

Trustees of Both Lodges and of D. O. K. K. Take Action at Meeting Friday Evening.

At a meeting of the trustees of Jacksonville Lodge No. 152 and Favorite lodge No. 376, Knights of Pythias, and Ilderim Temple No. 62, D. O. K. K., held at the Temple Friday evening, it was decided to arrange for a tent 14x28 at the chautauqua at Nichols park.

W. S. Badger, chairman of the joint board of trustees of the two K. of P. lodges, presided at the meeting, and Gilbert Masters acted as secretary. The meeting was attended by quite a number of members of the lodges and the matter of arrangements for the completion of the plans was left to the trustees. It is the plan to have a large tent at the chautauqua, for the convenience of members of the order and for the general public, the tent to be equipped with floor, rugs, chairs, lounge, writing desk, Gravel Springs water, piano and other conveniences and will be free to the public. During the chautauqua Ilderim Temple D. O. K. K. will assist in entertaining the visitors with orchestra music and it is probable that McCarty's Arabs will give a drill. In the days when Rome was mistress of the world it was quite a common saying that "all roads lead to Rome," and one of the men at the meeting Friday evening suggested that this be revised as follows: "All roads of the chautauqua lead to the Knights of Pythias tent."

DAY LABORER FALLS HEIR TO \$1,750,000 ESTATE IN GERMANY

German at Omaha, Who Became Estranged From His Family and Came to America, Receives Inheritance.

Omaha, Neb., Aug. 8.—Frederick Gross von Alvensleben, for 27 years a day laborer, received notice from the German consul at Chicago that he had fallen heir to an estate in Germany valued at \$1,750,000. Von Alvensleben became estranged from his family and came to America nearly thirty years ago. He said today that he has known he would some day receive a large inheritance, but admitted that his pride had prevented him for 27 years from accepting an annuity of \$20,000 which has been accumulating in a bank at Danzig, Germany. He engaged steamer passage and purchased transportation to Danzig.

Von Alvensleben says that all his friends are in America and that he will return when he comes into full possession of the estate. He lost a wife and two children in the floods which destroyed everything in its path in the Conomah valley. He has used the name of "Fritz" Gross since coming to America.

SOCIAL EVENTS.

A very delightful social event was that which took place Friday afternoon at the home of Mrs. John W. The time was spent in playing games and in a general social way and a splendid supper formed an important part of the program. Mrs. Litter had made very generous preparation for her guests and they certainly appreciated her cordial hospitality. The company included the following from Litchberry: Misses Lorette Petefish, Annabelle Crum, Mr. and Mrs. E. G. Henderson, Miss Maude Henderson, Misses Mae Martin, Mae Myers, Edith Hitchens, Grace L. Myers, Mr. and Mrs. John Young; from Jacksonville, Miss Carrie Henderson, Miss Ruth Waggoner, Miss Mary DeWees, Mr. and Mrs. O. F. Buffe, Mrs. R. A. Miss Frances Grassly entertained a number of children at her home on South Clay avenue Friday afternoon at a birthday party in honor of Miss Joan Grassly, daughter of Mr. and Mrs. M. H. Grassly of Chicago, who are visiting in the city. The afternoon was very pleasantly spent in playing games and with music and during the hours refreshments were served.

The Sunday school class of Westminster church taught by Mrs. Emma Smith served ice cream and cake yesterday evening at a very pleasant lawn social on the grounds of the church. Over seventeen dollars was taken in by the young ladies to apply on the various pledges of the class. Those having charge of tables were Misses Marion Updegraff, Irene Hadden, Edna Leake, Edith Seibert, Mary Settles and Ruth Hillerby. The young ladies of the class were assisted by their teacher, Mrs. Smith and Richard Hillerby. Miss Lena Johnson was chairman of the committee on management.

TOURISTS TAKE SIDE TRIP TO PAOTINGFU

CITY IS ONE HUNDRED MILES FROM PEKING.

Jacksonville Party Visits Mission Station Occupied by Rev. Alexander Cunningham—Is Doing Splendid Work There.

(By S. W. Nichols.)

The following is a continuation of the letter from Paotingfu, China, which appeared Sunday, August 3:

It would be rather difficult to define exactly what Mr. Cunningham does and rather it would be hard to say what he doesn't do. He is pastor of the church, has charge of the boys' boarding school, does a part of the academy work, has Bible classes.

He also has other schemes for usefulness, among which is the annual rally, when on the beautiful compound there is a gathering of Christians from all about and with fine results. Topics of importance are discussed and a general uplift is the result from personal contact. Two big Sunday school picnics have been a new thing and grand success. Then there is a street chapel presided over by a native pastor named Wang, who was earnest and devoted. He was an educated man and did much in the way of writing tracts for the student class and in working up Chinese literature as a means of approach to the educated class. This good man died from overwork and his place has been hard to fill.

In the country work there are 12 out stations, mainly in important towns and most of these have resident preachers and Bible women, though some are lacking in these important equipments. Then there are some of the force itinerating tours, when preaching is done at fairs and great gatherings, good books are sold or given away, inquirers' classes are formed, women visited in their homes, country clinics conducted by capable doctors and various other means used to disseminate the good seed. The work has been divided into the east and west fields, a number have been baptized, others are studying the word and all the good possible is being done in this direction with the means at the command of the force.

Woman's work is an important part of the mission, as it is the home that must be reached and to do this under the circumstances requires much careful management, as the customs of the people are peculiar, but great care is taken to conform to the usages of the land and to reach and benefit as many as possible in this way.

Of course the schools are the greatest means for getting at the people and preparing them for the work of disseminating the truths of the gospel and to that end the greatest care is taken to have the schools well conducted, capable teachers and good influence placed around the young who thus come to be educated. More dormitory room could be used to good advantage and much other equipment is needed, but still the faithful workers are going ahead with the means at their command and great good is being accomplished.

The Women's Missionary society has been a great success and has given liberally; \$50 in a year, which is wonderful.

In this connection it is only just to mention some who have gone before, that is some whose work has been recent, but who are not here now and among them is Miss Anna H. Gowans, who was here for eleven years and who has recently been called to Peking, as it was felt that her services were so urgently needed in that field. Her work here was very efficient and in an important field. She had peculiar influence with the wives of Chinese officials whom it is difficult to reach, had classes of women at their homes, care of the girls' day school, schools in the city and country.

Anything pertaining to Paotingfu would be incomplete without mention of the name of Rev. J. W. Lowrie. He began work here at an early date, 1893, when the enterprise was in its infant stages and by his wonderful skill and varied ability accomplished wonders. He had great influence, too with all classes and was highly respected for his wonderful efforts for the good of all. During the Boxer war he was detained at Tientsin, having gone there that far on his way home from Shanghai, and after the troubles had partly subsided he accompanied the German army to this place and so great was the wrath of the officers on account of the cruel outrages practiced that they were on the point of destroying the city and it has generally been the opinion that the influence of the good may was all that saved an attack. So great were his efforts appreciated by the wealthier class that they erected at their own expense a fine monument to the memory of his mother and gave the station the sixteen acres of land that it now occupies. He is now in rather delicate health and will not be able to endure the hard work which he has been doing in years past.

Dr. Taylor, who was formerly the head of the hospital here and who was a victim of the Boxer war, was another remarkable man and who "being dead yet speaketh." His influence was great and left an impression on the locality which will always be left for good.

The home life of Mr. and Mrs. Cunningham is beautiful. Their house is shaded by fine trees and is cool and comfortable and that means much in this land of intense heat in the summer time. The law of love prevails and while both are busy, they do not forget that they are all in all to each other and the bond between them is beautiful and the servants in and

about the house are devoted to them, as well they may be, for they are treated kindly and well. The home is the refuge of more than one body tired and worn seeking repose and refreshment and their tender ministrations given by them will long be remembered by the grateful recipients.

Not long since a brother missionary in another field and not of the Presbyterian fold either, came announced with his wife and sick baby and nurse from a station where there was no physician and desiring to be where he could have the offices of a competent doctor for the little one who was suffering with dysentery and who was in a precarious condition and it is a pleasure to add that the capable treatment of Dr. Maud Mackey is resulting in a cure. Many similar instances might be mentioned and all go to show the kindness and love which are the rule of this beautiful home. Well is illustrated in their case the saying that if you want a favor go to the busiest man for it.

The Martyrs' Memorial Monument.

When the mission was started here it was impossible to get land near the city and so the compound was located about two miles north of the city. The buildings were utterly destroyed and every one who could be found was cruelly murdered. Even the foundations of the houses were dug up and every effort made to find something which might be of value. But little was left of the bodies of the victims, but all that could be secured was gathered together and reverently deposited in the burial place or cemetery, to which the grounds formerly used as the mission compound are now devoted. They are surrounded by a neat stone and brick wall and the interior is planted in trees and shrubbery and the whole is cared for by a sexton whose heart is in the work. The monument is a structure supported by stone pillars and has a beautiful roof and inclosing a space on which is the following inscription:

"To the glory of God and in living remembrance of George Yardley Taylor, M. D., Rev. Frank Edson Simeon, May Gilton, his wife and their children, Paul, Francis and Margaret, Cortland Van Rensselaer Dodge, M. D., and Elsie Campbell Sinclair, his wife, who, together with many Chinese fellow Christians, gave up their lives for Christ after the burning of the Presbyterian mission premises on this spot, June 30, 1900."

The following texts are also inscribed on different sides of the shaft:

"It is enough for the disciple that he be as his Master."

"Greater love has no man than this that a man lay down his life."

"Therefore are they before the throne of God day and night."

"We know that they shall rise again in the resurrection at the last day."

Near by is a handsome monument to the memory of Mrs. Amelia Tuttle Lowrie, mother of Dr. Lowrie, already mentioned. This was also a voluntary tribute by the gentry of the city as a testimonial of the great esteem in which both the man and his mother were held by the donors. The monument and the Taylor memorial hospital were tributes from friends mostly in the United States.

The American Board Mission.

The American Board has also an interesting work here which it visits several times with Mr. Cunningham. They have a large compound with good buildings and the people are diligent persons to meet and doing a good work. They have no hospital, leaving all such work to the two enterprises of that kind in the Presbyterian compound and the two missions work in absolute harmony. Their force consists of Rev. E. W. Galt and wife, Rev. Frank Price and wife, Miss A. G. Chapin, Rev. Isabel Phelps and Mrs. C. J. King. They conduct a boys' school with 57 pupils, a girls' school with 36 pupils, a day school, church and a country work extending over a territory about the size of Vermont. Like all the other workers we have found, they are wide awake, first class people, happy in the performance of their duties and a blessing to the people of this region.

This mission also suffered the loss of three martyrs during the Boxer war and the destruction of their buildings.

General Evangelistic Work.

In his report to the Chinese council Mr. Cunningham, chairman on evangelistic work, made some strong statements, from which I quote briefly:

"By means of the Red Cross and hospital work, the reaching benevolent and now the Republican government, prejudice against the Christian religion has largely given way. By means of the press, the school, the rostrum, the multitudes are being instructed in the great themes of commerce, politics and religion. The approval of the Christian religion has in some measure at least been secured and men and women by the thousands are seeking the truth, while not a few are saying, 'What must I do to be saved?' Never since the days of Constantine has the church faced such wide open doors. It is a source of satisfaction to know that the different mission boards are making wise and far reaching plans to cope with the situation. 'We are glad to see a considerable increase in the number of self supporting and in some instances self governing churches. Also that the middle wall of partition here in the orient is so low that it is no barrier when the time and situation are ripe for individual Christians from different churches to unite in one body if more may be accomplished."

ERUPTION ON ANKLE GREAT SUFFERING

Many Nights Did Not Sleep. Burned All the Time. Wore Bandage Night and Day. Used Cuticura Soap and Ointment. Now Well.

Kingsville, Mo.—"My trouble began eighteen years ago. Nearly half of the time there were running sores around my ankle; sometimes it would be two years at a time before they were healed. There were many nights I did not sleep because of the great suffering. The sores were deep running ones and so sore that I could not bear for anything to touch them. They would burn all the time and sting like a lot of bees were confined around my ankle. I could not bear to scratch it. It was always so sensitive to the touch. I could not let my clothes touch it. The skin was very red. I made what I called a cap out of white felt, blotting paper and soft white cloth to hold it in shape. This I wore night and day.

"I tried many remedies for most of the eighteen years with no effect. Last summer when my ankle had been sore for over a year and much worse than ever before I sent for some Cuticura Soap and Ointment. It would itch and burn, besides a great hurting that I think tongue could never explain. The very first time I used Cuticura Soap and Ointment I gained relief; they relieved the pain right then. It was three months from the time I commenced using Cuticura Soap and Ointment until the sores were entirely healed. I have not been troubled since." (Signed) Mrs. Charles E. Brooke, Oct. 22, 1912.

Cuticura Soap 25c, and Cuticura Ointment 50c, are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

CONFIDENCE HOLDS IN BUSINESS CIRCLES

DAMAGE TO CORN IS OFFSET BY THE GAIN IN WHEAT IN SOUTH AND WEST.

Current Trade Reflects Usual Summer Quietness, Yet Encouraging Reports Are in the Majority—Preparations Being Made For Fall Drygoods Business.

New York, Aug. 8.—Dun's Review will say tomorrow: Confidence still holds sway in business circles. Optimism in the west and south has been tempered somewhat by the damage to corn, although it is the opinion that much of the loss in that cereal will be offset by the gain in wheat.

Generally considered the agricultural prospect continues promising and the purchasing power of the farming community will be enhanced by abundant harvests and remunerative prices for the leading staples. Current trade reflects the usual summer quietness, yet encouraging reports outnumbered those of an opposite character. A slight increase in the volume of new orders is apparent in iron and steel. Preparations are being made for fall business in drygoods.

Bradstreet's Report.

New York, Aug. 8.—Bradstreet's tomorrow will say: While irregularity still pervades trade, crop and industrial reports and fall trade seems rather slow to get under headway the underlying general tone, except in sections where early favorable feeding crop promise has faded, is still highly optimistic.

Securities markets at home and abroad show an improving tendency, the money situation reflects less tension, the country's wheat yield promises to be a bumper one, the railroads are busy moving the first of the country's large crops and export clearances of this wheat are liberal.

Business failures for the week ending August 7 were 263, which compares with 221 in 1912.

BANK CLEARINGS.

New York, Aug. 8.—Bradstreet's bank clearings report for the week ending Aug. 7 shows an aggregate of \$2,995,905,000 as against \$2,712,288,000 last week and \$3,035,000 in the corresponding week last year.

SCHOOL ROOM RESPONSIBLE FOR MANY HUMAN DEFORMITIES

Osteopath Claims Faulty Construction of Seats Results in Cramping the Spine.

Kirksville, Mo., Aug. 8.—Dr. Ernest C. Bond of Milwaukee, addressing the American Osteopathic association here, said that the school room is responsible for many human deformities. He said that faulty construction of seats results in a cramping of the spine and that as a result 80 per cent of the freshmen class in a certain university were affected with a spinal curvature in greater or less degree. Dr. Bond said that many seats were so constructed that the convex surface of the seat back meets the convex curve of the spine when the child attempts to sit direct, thereby causing discomfort. He urged that the osteopathic association strive to educate the public to demand hygienic seats in the school room. He also recommended the use of adjustable seats and desks in the schools.

Dr. Bond said that if a child so sits that its right thigh is at right angles to the body and the feet are planted firmly on the floor, the muscular effort to sit erect will throw the spine into the proper curvature. "In my opinion," he said in discussing dress, "it was a straight front corset and the kangaroo walk went out of style; both were natural and therefore beneficial."

Remarkable Cure of Dysentery. "I was attacked by dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief." E. W. Hill of Snow Hill, N. C. For sale by all druggists. (Adv.)

STRANGE FREAK OF LIGHTNING

Thursday, about 4:30 p. m. lightning played a queer prank on the farm of W. W. Carter two and a half miles south of the city. Mr. Carter's son, Wallace, was unharnessed his team in the stable and Mrs. Carter was in the front yard, when a sharp stroke of lightning followed by a crash of thunder occurred. The bolt struck in an open field of stubble, about a hundred feet from a wire fence, which was uninjured. It tore up the ground over a small space not two feet in diameter and set on fire the scant stubble which burned but little. It raised quite a dust and neighbors telephoned to ascertain if a building had been struck.

Mr. Carter said no damage was done, though they had been threshing oats right near the place only the day before. Mr. Carter thought it strange that the bolt struck so near the wire fence, which was uninjured. It struck 300 yards from a cow barn.

RAILROAD NOTES.

A train of eight coaches for the north yesterday morning on the C. P. & St. L. road bearing the A. H. T. A. merry makers. The train was in the special charge of Conductor McDow and Engineer Phelps with engine No. 43 pulling.

Preparations for the Knight Tempood freight offices and warehouses and all the roads passing through the city are to be commended for their enterprise in that respect.

Preparations for the night Tempood special train to Denver Sunday are rapidly progressing and the indications are that there will be a goodly number going and that they will have on the Alton exceptionally fine accommodations.

P. C. Ditz, agent of the Chicago & Alton road in this city is going to Denver with the Knights in a double capacity. He is a member of Hospitalier Commandery No. 31 and will be one of the excursionists and at the same time will have special charge of the train.

R. Y. McLellan, traveling passenger agent of the C. P. & St. L. road went along with the A. H. T. A. excursionists yesterday to see that everything went all right.

W. L. Simpson, freight agent of the Wabash in this city, is enjoying a visit from his son, W. H. Simpson, of Ft. Smith, Ark. The young gentleman is in charge of station agents' accounts on the Ft. Smith A. & G. road in Arkansas.

G. V. Moore, freight loading inspector for the C. B. & Q. road, passed through the city yesterday on the local freight on a tour of inspection along the line.

H. J. Foale, superintendent of signals on the Wabash has placed in position at Johnson street an automatic alarm or signal bell which will ring continuously when a car or engine is anywhere on the track within fifteen hundred feet of the crossing. Johnson street is near the Jacksonville Packing Company plant in the east part of the city and the bell will be a decidedly good thing.

Car Shops.

The shops are now running full blast with about 210 men six days a week and eight hours a day and there is in sight now about enough work to keep the whole force going till Christmas in addition to that which will naturally come along from day to day.

Engines number 2 and 5 switch; 24, 26, 29 and 30 passenger and 41, 45, 46, 52 and 61, freight are in for repairs and will need a lot of work before they will be ready to go out.

In the car shop for repairs are coach number 16, combination car 22, and caboose, 19.

The gravel plows have been ordered put in shape and shipped north for work on the track.

New rails are being laid between Havana and Peoria.

W. C. Gibberson, superintendent of bridges and buildings, has been at the shops looking them over carefully and ascertaining what is needed to put them in first class shape.

The road has recently received five new engines of the consolidated type for freight services and two more are coming.

A lot of new coal and box cars have recently been received by the road.

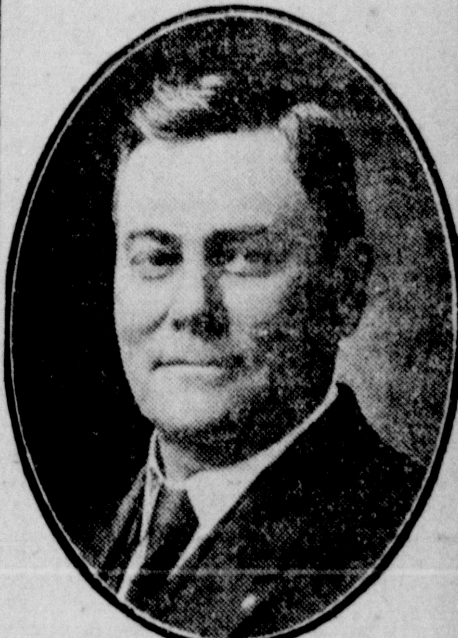

About all the shop work of the road is done in this city. At Springfield about the only work done is regular round house work and some box car repairs.

BIDS FOR COAL.

Bids for supplying the Jacksonville schools with coal for the ensuing year will be received by the undersigned clerk of the board of education until noon Thursday, Aug. 14, 1913. Bids are desired on three inch lump. The right is reserved to reject any or all bids.

R. L. Pyatt,
Clerk Board of Education.

Lavender, Moore and Richie Are Pounded For Fifteen Base Hits, Including Three Home Runs—Alexander Allows But Three Bingles Up to Eighth When He Eases Up.

Chicago, Aug. 8.—Philadelphia buried Chicago under an avalanche of hits, which included home runs, triples and doubles and won a farcical game 16 to 3.

Lavender was hit for four runs and Earl Moore, formerly of Philadelphia, who followed, permitted three more, and he soon made way for Richie, from whom the visitors netted nine runs. Alexander on the other hand was almost invincible, the locals making only three hits off his delivery up to the eighth inning when he eased up.

A STRONG REFERENCE.
A young man recently applied for
a position with a large printing
house, and not having a letter of
reference, offered his bank book. It
showed a regularity of entries of de-

persistence, which finally secured for
him a good position.

EVENTS DOMINATE STOCK MARKET

AGRICULTURAL CONDITIONS AND MEXICAN SITUATION CHIEF INFLUENCES.

Interest in Government Crop Report
Is Keen to Point of Anxiety—Is-
sue of Report in Final Market
Hour Brings Little Change in
Stock Movement.

(By Associated Press)
New York, Aug. 8.—Agricultural
conditions and the Mexican situation
dominated today's irregular stock
market. Interest in the government
crop report, issued in the final mar-
ket hour, was keen to the point of
anxiety, recent advices indicating
serious damage to various cereals.

Contrary to expectations the mar-
ket, which had been waiting on the
crop report, showed little change
from its somnolence of the preced-
ing four hours, which were relieved
at odd moments by heaviness in Un-
ion Pacific, Atchafalpa, Southern Pa-
cific, Texas and Pacific, Missouri Pa-
cific, Reading and Steel.

Declines in these issues ran from
1 to 1 1/2 points, while New Haven,
which was under pressure from the
outset, recorded its lowest price in
over a score of years at 98 1/2.

The decline was accompanied by
rumors suggesting a more conserva-
tive dividend policy. An 8 point
break in Chicago & Alton preferred
was attributed to the road's poor
earnings.

Final prices showed recoveries.

WOMAN SICK FOURTEEN YEARS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.:—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sensitive Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Men Welcome Mother's Friend

A Duty that Every Man Owe to Those who Perpetuate the Race.

It is just as important that men should know of progressive methods in advance of motherhood. The suffering, pain and distress incident to child-bearing can be easily avoided by having at hand a bottle of Mother's Friend.

This is a wonderful, penetrating, external application that relieves all tension upon the muscles and enables them to expand without the painful strains upon the ligaments. Thus there is avoided all those nervous spells, the tendency to nausea or morning sickness is counteracted, and a bright, sunny, happy disposition is preserved that reflects wonderfully upon the character and temperament of the little one soon to open its eyes in bewilderment at the joy of his arrival. You can obtain a bottle of "Mother's Friend" at any drug store at \$1.00, and it will be the best dollar's worth you ever obtained. It preserves the mother's health, enables her to make a quick and complete recovery, and thus with renewed strength she will eagerly devote herself to the care and attention which mean so much to the welfare of the child. Write to the Bradford Regulator Co., 129 Lamar Bldg., Atlanta, Ga., for their valuable and instructive book of guidance for expectant mothers. Get a bottle of Mother's Friend to-day.

There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written, just what every woman wants to know, and will be a splendid little textbook for guidance, not only for yourself, but will make you helpful to others. And, in the meantime, do not fail to get a bottle of Mother's Friend at the drug store, and thus fortify yourself against any and all pain and discomfort.

GOVERNMENT CROP EXPERTS ESTIMATE CORN LOSS TO BE 300,000,000 BUSHEL

THE TOTAL PRODUCTION OF CORN IS REPORTED TO BE 452, MILLION BUSHEL LESS THAN WAS RAISED LAST YEAR

General Condition of the Nation's Greatest Farm Crop Is Placed at 75.8 Per Cent of Normal, Compared With 86.9 On July 1st—Report Shows Production of 511,000,000 Bushels of Winter Wheat, the Greatest Harvest Ever Gathered in U.S.

Washington, Aug. 8.—A loss of 300,000,000 bushels of corn, the nation's greatest farm crop, has resulted from the great damage wrought by drought and other conditions since July 1, the government agricultural experts estimated today in their August crop report. A total production of 2,672,000,000 of corn was predicted. This is 452,000,000 bushels less than last year's crop.

The general condition of corn was placed at 75.8 per cent of a normal, compared with 86.9 on July 1. Kansas was hit hardest, the condition there having been reduced from 81 per cent in July to 30 per cent on Aug. 1. Oklahoma came next with a condition of 44 against 87 in July and Nebraska reported 67 against 91 July 1. These states have almost 19 per cent of the total area planted to corn this year.

Great Wheat Harvest.
A bright spot in the monthly grain report, however, was the preliminary statistics showing a production of 511,000,000 bushels of winter wheat. This is the greatest harvest of wheat ever gathered in the United States, exceeding the record crop of 1902 by 10,000,000 bushels. Today's figures exceeded by 28,000,000 bushels, the estimate made by the department in July. Spring wheat, too, was given an increased estimate of production, it being 15,000,000 bushels more than the July estimate, the total being placed at 223,000,000 bushels. With the bumper winter wheat crop and a fairly good spring wheat production, the total harvest of all wheat is estimated at 744,000,000 bushels. A crop this size would place the year's production second only to the record crop of 1901 when 748,000,000 bushels were produced. The harvest of white potatoes, it is estimated, will be smaller by 82,000,000 bushels than the crop of 1912. A total of 339,000,000 bushels is estimated.

The crop report shows the condition of the principal crops on Aug. 1 and estimates they called and the production of each as follows:

Conditions by States:			
Corn.			
	1913	1912	Avg.
Illinois	72	79	83
Iowa	85	89	83
Nebraska	67	79	81
Missouri	70	81	80
Indiana	84	80	84
South Dakota	82	83	83
Minnesota	95	83	82
Wheat.			
	State	Yield	Production
	Nebraska	18.6	58,106,000
	Missouri	17.1	39,586,000
	Illinois	18.7	41,963,000
	Indiana	18.5	39,534,000
	Iowa	23.4	7,816,000

Details of Reports Made.
With preliminary estimates of the bumper winter wheat crop and the size of the crop of rye, the department of agriculture's crop reporting board in its August report announced figures giving also the indicated yields, interpreted from conditions, figures, of the probable total production of corn, spring wheat, oats, barley, buckwheat, potatoes, tobacco, flax, rice and hay. At the same time they announced the condition of these crops on August 1 (or at time of harvest, stocks of oats and barley in farmers' hands on August 1 and the indicated acre yield of the crops. Details of reports made on each crop follow:

CORN—Condition 75.8 per cent of a normal, compared with 86.9 per cent on July 1, 1913; 80 per cent on Aug. 1, 1912, and 82.2 per cent, the average for the past ten years on August 1. Area planted 106,884,000 acres or 99.8 per cent of last year's acreage. Indicated yield, 25 bushels per acre, compared with 29.2 bushels last year and 26.5 bushels, the average for the past five years. Estimated production, 2,672,000,000 bushels, compared with 3,124,746,000 bushels last year; 2,531,488,000 bushels in 1911, 2,886,260,000 bushels in 1910 and 2,552,000,000 bushels in 1909.

WINTER WHEAT—It is preliminarily estimated the yield per acre of winter wheat is 15.5 bushels, compared with 15.1 bushels last year and 15.2 bushels, the average for the last five years. On the area planted, 30,938,000 acres, it is estimated preliminarily the total production of winter wheat is 511,000,000 bushels compared with 399,919,000 bushels last year, 430,656,000 bushels in 1911, 434,142,000 bushels in 1910, and 418,000,000 bushels in 1909. The quality of winter wheat is 93.7 per cent, compared with 90.7 last year, 92.0 per cent in 1911 and 92.2 per cent the five year average.

SPRING WHEAT—Condition 74.1 per cent of normal, compared with 73.8 per cent last month, 90.4 per cent last year, and 80.4 per cent the average for the past ten years. Indicated yield per acre, 12.5 bushels, compared with 17.2 last year, 9.4 bushels in 1911, and 13.3 bushels, the average yield per acre for the past five years. WIVES OF DRINKING MEN

You can save your drinking husbands and sons by giving them the Neal Drink Habit Treatment. Your husbands may be fighting the drink habit with all their will power, but when the irresistible craving for alcoholic stimulants comes on they cannot resist and the result is another "big drunk." No doubt they are discouraged by repeated failures to stop of their own accord. With certain failure and ruin staring them in the face you, should act for them, at once, and send them to the Neal Institute—or give them the Neal Habit Treatment. The Neal Drink Habit Treatment is a safe, sure, vegetable remedy that removes the craving for drink in three days without the use of hypodermic injections.

Call and get satisfactory proof and references, or write or phone for book of information. The Neal Institute, No. 811 East Forty ninth street, Chicago, or at Springfield, Ill., or Omaha, Neb.

TRUTH TRIUMPHS

Jacksonville Citizens Testify for the Public Benefit.

A truthful statement of a Jacksonville citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Jacksonville citizen tells of Doan's Kidney Pills.

Could you demand more convincing proof of merit?

Mrs. J. H. Allen, 430 South Main St., Jacksonville, Ill., says: "I can strongly recommend Doan's Kidney Pills for they did me a world of good. Often I was so dizzy that I couldn't see and I also felt nervous. My kidneys were weak and I had backache. Doan's Kidney Pills fixed me up in good shape."

If your back aches—if your kidneys bother you, don't stumpy ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Allen had—the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

BIG LIQUOR BILL IS BASIS
OF COURT PROCEEDINGS

Claim for \$1,032.40 in Scott Estate
Compromised for \$200—Itemized
Bill to Be Used as Evidence in
\$10,000 Damage Suit.

A case out of the ordinary was heard by Judge Brockhouse in the county court Friday. William Berlinger of Springfield seeking to collect a claim of \$1,032.40 from the estate of Harry Scott formerly a resident of the Waverly neighborhood. The bill is mainly for whiskey and other liquor, which, it is claimed, that Mr. Scott purchased from Berlinger during a period from July, 1909 to February, 1912. After various witnesses in the case had testified, the lawyers got together and compromised the case for \$200.

Shortly after this matter had been settled Stevens & Herndon, as attorneys for the Scott estate, filed the praecipe of a \$10,000 damage suit against Berlinger. The title of the suit is Francis Scott et al vs. William Berlinger, trespass. It is understood that the itemized bill filed by Berlinger in support of his claim against the Scott estate will be used as evidence in the damage suit, which will be based on the charge that Berlinger sold liquor to Scott, whom he knew as a drunkard.

The itemized bill filed shows for days and weeks and months Berlinger sold Scott whiskey and other liquors by the drink, quart and gallon. The purchases during some weeks were made with marvelous frequency. Mr. Scott died early in 1912 and his wife died soon afterward. They left an estate of considerable value, consisting mainly of farm lands near Waverly. The heirs in whose name the damage suit has been filed are Francis, Harold, Florence and Stewart Scott. Commissioner George Coe of Springfield, who is the administrator, is a relative of the complainants.

ENGINE AND GENERATOR
FOR LIGHT PLANT HERE.

New Machinery Will be Installed by
City Within Three Weeks—Will
Furnish Power for Pumping Wells
or at Station.

The engine and generator for the city light plant arrived in Jacksonville Friday and will be placed in position today or at least brought to the city building. The concrete foundations were finished a week since and the bolts which are to hold the machinery in position were imbedded in this concrete. It will take some further time, however, for this concrete to properly set.

The engine and generator were shipped in an automobile car and when the car arrived a clerk in the freight office telephoned to the office of the city clerk that a carload of autos had come in for the city. Commissioners Brennan and Knollenberg who first received this message, began planning for some good cross country trips. They soon discovered, however, what the shipment really was.

The machinery will be put in readiness just as soon as possible and with three weeks the city should be in position to furnish power for the Widenham & Daub wells or for pumping at the pumping station of desired.

Interesting Sessions of State Organization Were Closed at Peoria Friday.

Langston of Chicago, who talked on cement coating, and talks by the retail wall paper men. Wednesday afternoon the delegates had a ball game, teams chosen from the traveling men and the painters playing, and Thursday night a boat ride up the river was enjoyed. Friday L. A. Bertrand of Kankakee gave a very interesting paper on outside painting. The convention was attended by a most enthusiastic body of delegates and Chicago was chosen for the next meeting place.

HOT WEATHER MAKES BIG
LOCAL DEMAND FOR ICE

Snyder Company Has Two Plants
Running Full Time and Receives
Shipments Also—Gates Company
Getting Supply Again After Delays of Several Days.

The extreme hot weather of this season has resulted in an unusual consumption of ice and strong demands have been made upon the Snyder Ice & Fuel Co. and the R. A. Gates Ice & Fuel Co., the only dealers in Jacksonville. Mr. Snyder has his north Main street plant in operation, as well as his plant on Johnson street and in addition has shipped in some from other points. The Gates company ships its entire supply and the local situation has been somewhat complicated during recent days by the failure of the Gates company to receive their regular shipments. Railroad service or whatever caused the trouble has now been straightened up and the company received two cars late Friday over the Burlington and has other cars in transit. W. D. Gates, speaking for the firm, said last evening that no further delays were anticipated.

Mr. Snyder said that the local situation had resulted in very heavy demands on his company. His difficulty, he said, was to take care of all the delivery business, as he had to equip extra wagons and get additional teams, but that he had things moving along smoothly now. Mr. Snyder said he was using all his two plants could produce and was shipping from outside the city and had no difficulty in getting the ice needed.

At 12 o'clock Thursday night, Mrs. Lottie Cox died at the family residence, three miles and a half east of Franklin. She was the wife of G. T. Cox and had been sick for some eight months and death was a welcome relief from suffering. The deceased was born in Montgomery county, Kentucky, Dec. 1, 1871, and her maiden name was Lottie Smith. She was married at the family home March 10, 1891, and was a lady of highly estimable character and much beloved by all who knew her. She was a faithful wife and mother and a kind friend and neighbor. She survived by her husband and two children, Cecil and Myrtle; also her father and four sisters, Mrs. Mildred Smith of Kentucky, Mrs. C. E. Townsend of Bridgeport, Ill., Mrs. Ida Tanner of Springfield and Miss Alma Smith, who resided with her deceased sister.
She was a member of the Island Grove M. E. church and a faithful believer in the Master.
The funeral will be conducted at the family residence Sunday at 10 a. m. and interment will be in Waverly cemetery.

Frank Corrigan died at St. John's hospital in Springfield Thursday at 3:15 p. m. He was the son of Mr. and Mrs. John D. Corrigan of New Berlin. He had not been sick very long, but grew suddenly worse and Wednesday it was deemed best to take him to the hospital, which was done and there the doctors decided that an operation should be performed and it was done, but failed to save him.
He was thirteen years old and is survived by his parents, four brothers and six sisters.
The remains were brought to the family residence at New Berlin Friday morning and the funeral will probably be held today.

MURRAYVILLE GOOD ROADS MEETING.

At Murrayville Friday night a good roads meeting was held in the open air near Carlson's store where an audience of sixty or more men listened to Frank J. Heint talk about the Tice good roads law. Mr. Wyatt of the Murrayville bank presided and the meeting was held in the open air rather than in the hall because of the extreme heat. Mr. Heint explained the main provisions of the law and then an opportunity was given for asking questions. This resulted in further interesting discussion. Farmers about Murrayville are deeply interested in the subject of good roads and to join the movement to improve them. Mr. Heint was accompanied by A. L. French and the trip was made in Mr. French's car.

GOOD PATRONAGE NOW FOR CITY'S WATER SUPPLY

Gas Company and School For Deaf Are Customers Now—Water is Pumped Direct From Wells Into Mains—Supply at Lake Still Good.

The trouble with the water main out near the Widenham & Daub wells now seems to be over and Commissioner Brennan said Friday afternoon that pumping had gone on without cessation since 4:25 o'clock Thursday afternoon. At that hour the work of laying a new section of the water main was completed and pumping could be resumed.
The water coming from the wells is being pumped directly into the mains and yesterday the pressure was excellent and the water was clear. During Thursday night the water was raised seven feet in the distributing reservoir. Commissioner Brennan said yesterday that the supply from the wells was coming in at a good time for while there is still plenty of water in the lake it does not flow down to the station as rapidly as desired now that the demand is far above normal.
Because of the long drought the Jacksonville Gas company is now buying from the city and the same is true of the State School for the Deaf. The Gas company several years ago dug a wide, deep well down near the Brook on the company's property and usually they have a good supply of water there. Now, however, the well is completely dried up. The School for the Deaf gets water from the Ashely pond but the supply is low there now.
The C. P. & St. L. shops will also be customers now within a few days as Mr. Ingrud informed the water department yesterday that his supply is just about exhausted and that he would have to buy from the city within a very short time. Notwithstanding the long drought and the heavy demand the situation is not as acute as has been the case in the past at various times.

WOODSON WATERMELON CLUB.
Organization Has Been in Existence For the Past Nineteen Years—Has Held Annual Picnics.
A member of the well known Woodson Watermelon Club has prepared the following history of the organization: "There has been and will continue to be considerable discussion as to who and what the Woodson Watermelon Club is, and a brief history of the organization may be of interest to your readers. It is a corporation legalized by a charter from the State of Illinois to give an annual picnic in Woodson. The character of the picnic to be governed by the board of trustees, elected from its membership, which membership is composed of legal voters of Morgan county, each of whom to become a member must sign its rules and by-laws.
"The club came into existence nineteen years ago through the instrumentality of some big hearted men taking up a collection of money which was used to purchase all the watermelons of the town and giving them to the boys to see them get a 'bill.' The idea took so well that the club was then and there placed on a permanent footing and from this small beginning grew into such proportions that a legal charter was necessary in order that its affairs might be conducted on business lines.
"The success of the club increased each year and now, while the watermelon feature of the picnic has been revised a little and is still maintained. New features have been added to the day's amusement, with the ultimate end a view of a purchase from its receipts a permanent home, park and club house, where all the public entertainments of the village, both church and secular, may be held.
"This year's special feature, outside of the watermelon distribution, will be a high class horse show, and we especially invite all owners of good horses to be present and compete for the various prizes."

DR. HARKER TO SAIL TWO WEEKS FROM TODAY.

He wrote from Gramere, a city located in the celebrated English lake region, well known in literature for its associations with Wordsworth, Southey, Ruskin and Coleridge.
Michael Shadid expects to return to his home in Springfield today after a visit of two weeks with his cousin, John A. Shadid, of this city.

514 ENJOY OUTING OF ANTI-HORSE THIEF ASSOCIATION

Merry Crowd of Excursionists Take Railroad to Havana and Boat Trip up Illinois River to Pekin.

A fine day for traveling and a congenial company of travelers combined Friday to make the 1913 A. H. T. A. excursion a highly successful affair. Besides members of the association and their friends from Jacksonville a company of thirty-five from Woodson besides smaller parties from other nearby towns were on hand to take advantage of the day's outing. The number of tickets sold totaled 514, of the number 491 being adults and 23 children's tickets.

The C. P. & St. L. train left Jacksonville on scheduled time Friday morning and made good time to Havana, where the excursionists were delayed for a short time, after which they took the steamer Columbia for the trip up the river through the Copperas creek locks to Pekin. The boat started on the return trip at 3 o'clock and the train arrived in Jacksonville at 8:30. The excursionists seemed to enjoy the occasion fully, visiting and taking part in considerable number in the dancing which was provided through the entire trip on the river.
